BUILT BY THE WORLD

Thanks to its permanently inflated helium envelope and a hydro-electric winch, the system consumes no more energy than an elevator and is completely noiseless.

LEADER IN TETHERED FLIGHTS

ANGKOR WAT - CAMBODIA

Installed in 2003, the balloon allows passengers to discover 1000 temples at the height of 200 meters without disruption.

PROVIDING AN INDICATOR OF AIR QUALITY

A brand new citizen concept providing an indicator of the air quality - Paris. The result of a partnership between the city of Paris, the organization Airparif and Generali group, the Generali balloon, thanks to its extreme visibility, is the 1st real-time indicator of air quality that simultaneously offers flights during which one can discover Paris from a height of up to 300 meters (1000 feet).

GREAT PARK CALIFORNIA - USA

The giant orange balloon climbs passengers at the height of 100 meters above the Californian desert since 2007.
